- ▶ Lunch and dinner are provided Day 1 and 2

Equipment rental fee is \$225 per course and includes:

- ✓ Masterpiece Arms PMR Pro II Rifle (6.5 Creedmoor)
- ✓ Zeiss LRP S3 6-36x56
- ✓ Accu-Tac PC-4 Bipods
- ✓ MDT LRA Send It Level
- ✓ Thunder Beast Arms Corporation Ultra 9 Suppressor
- ✓ Hawk Hill Data Card
- ✓ FatBoy Tripods (where applicable)
- ✓ Rear and Positional Shooting Bags
- ✓ Shooting Mats
- ✓ Electronic Ear Pro (Bring Your Own Eye Protection)

The rifles and supporting equipment were all chosen by both Gary and Ray. They agreed on gear that they know performs so you can be assured you'll have a great training experience. There is nothing that ruins training like a rifle that won't shoot, a bad optic, or inconsistent ammunition. Using our equipment ensures that our instructors are focused on improving the shooter, the student is focused on applying what is taught, and we are not collectively wasting time troubleshooting equipment.

We want every student to succeed and surpass the course performance standards which is why the carefully selected equipment matters.

For Level I Courses, at a minimum, we highly recommend that you use our rifles in order to remove equipment/ammo variables we often see with student equipment. You can take the information and experience from Level I to ensure your rifle is set up correctly. You will also know what kind of performance to expect out of your rifle and gear when you leave. We do have a limited number of student rifles available so please reserve early. If you rent our equipment, we do require that you use our ammunition.

Ammo Fee: Will be calculated at the end of each course and based on how many rounds each student used. Typically, students use around 250rds per course.

Location: Pigg River Precision, Rocky Mount, Virginia 24151

Nearest Airport: Roanoke-Blacksburg Regional Airport is about 39 miles from Pigg River Precision (45 min drive.)
Lodging is available in Rocky Mount, Va. Roanoke offers a larger selection of hotels and better accommodations in general.

We will be adding Level III, Rimfire, and Long Range Carbine Courses to the calendar soon. Long Range Level I & II Will Be a Prerequisite For Those Courses.

Current Course Dates: ▶ April 19-21, 2024, Long Range Level I ▶ April 23-24, 2024, Long Range Level II
A Level I Attendance or Graduate Certificate is non-negotiable prerequisite to Level II

There is a rest/refit day in between Level I and Level II Courses. We will have instructors at the facility on refit days in a limited capacity so you can use that day and the information you learned in Level I to set up personal rifles, checking zeros, practice grouping drills, or you can just rest and go sightseeing. Instructors will be available as range safety officers and provide guidance but won't provide additional training during that time. Please limit time on site so that instructors can rest and have time to refit equipment and set up the facility for Level II classes and courses of fire.

May Course Dates: ▶ May 24-26, 2024, Long Range Level I ▶ May 27-29, 2024, Long Range Level II
Level I is non-negotiable prerequisite to Level II

September Course Dates: ▶ Sep 6-8, 2024, Long Range Level I ▶ Sep 10-11, 2024, Long Range Level I

LEVEL I SCHEDULE

Day Zero	9:00am - 3:30pm
Day 1	9:00am - 6:00pm
Day 2	9:00am - 7:00pm

Day 2 includes Award and Graduation Ceremony

LEVEL II SCHEDULE

Day 1	9:00am - 6:00pm
Day 2	9:00am - 7:00pm

Day 2 includes Award and Graduation Ceremony

Course and Training Philosophy: Every XP course will have pass or fail academic and performance standards.

While both Ray and Gary feel it is important to have challenging standards in order to maximize student focus and performance, there is no benefit to us for a student to fail. We will do everything in our power to coach, guide, and assist every student so they are prepared for success. We want you to succeed.

We could offer courses that you just attend and leave with a certificate but that holds no one accountable. That training model does not provide quantifiable data that the instruction provided was effective or that the student's performance and knowledge has progressed.

Standards come with the eventuality that some students will fail to meet those standards. If that happens the student will leave knowing exactly what they need to work on in order to prepare, come back and exceed the standards.

Knowledge and performance standards are the required incentive for students to pay attention, to learn, to ask question, to perform their best, and to ultimately maximize the training experience.

Personalized Instruction and Coaching: Throughout every course students will receive personalized instruction and coaching. You will have an instructor assigned to you (1 instructor per 4 students) coaching and helping you all along the way. At the end of each day, instructors provide personalized, one on one, written and verbal feedback on your performance. You will know what you're doing well, what you need to work on, and HOW to fix the knowledge and performance deficiencies.

If you do not meet or exceed course standards, you will be given an Attendance Certificate. If you meet or exceed course standards, you receive a Graduation Certificate with your academic and course of fire scores included.

All students that do not pass initial testing will receive remedial training and be given one additional opportunity to pass the written test or the course of fire qualification

Any student that passes on the second attempt will receive a Graduation Certificate that will indicate PASS in both Academic Score/Course of Fire Score.

Every course will end with a Graduation and Awards Ceremony. The top 3 students will receive a prize from our sponsors, Zeiss Optics, FatBoy Tripods, and Accu-Tac Bipods! Those sponsors have donated over \$4000.00 in prizes! Each of the top 3 will get to choose one prize in order of merit.

If you have any other questions please email us at services@paramounttactical.com

Alumni Pricing: Once you have attended an XP Long Range Academy course you are part of the XP Alumni Family! Long range training as with all firearms training is never intended to be one and done. This is a lifestyle and regular training is critical to improve as a shooter. We currently have clients take the same course many times over. Every student will be pushed and challenged by your assigned instructor on a personal basis. Whether you're a seasoned shooter, attended the course 10 times, or a beginner, we will make sure you get one on one attention and dramatically improve every course. We also will make slight changes to every course so that people that are returning will experience something new every time.

Many clients will want to take the same course multiple times. Some students that didn't pass a specific course or didn't score as high as they think they could have will want to return and earn a Graduate Certificate or improve their scores.

To make it as affordable as possible to attend courses regularly, we are offering all XP clients an Alumni Discount. They will receive 40% off any course they enroll in that they have already attended (regardless of previous pass/fail).

We will be offering a limited number of Alumni slots in each course. Once you have attended every course we offer, that's just the beginning! We want to see you at every course!

Many of the items recommended below are on our website but will also be available for purchase on site during the course.

Minimum Equipment Requirements:

01. 1 MOA Rifle and 250rds of Match Grade Ammunition (cannot be mixed weights and brands)

- This course requires a rifle and ammunition that shoots 1 MOA or better. This needs to be confirmed by each attendee prior to the course. Do not rely on a rifle manufacturer's guarantee. The first day of the course is not the time to realize the rifle and ammo you brought to train with isn't meeting that standard.
- We want you to have the absolute best chance of success throughout this course and we don't want subpar equipment to hold you back or distract you or others from training.
- Renting one of our rifles is an option. Even if we do not have any rentals available online, send us an email as we do have some rifles in reserve.
- If you are renting one of our rifles, you must use our ammunition. We provide ammunition at a discounted price. Your ammunition will be billed separately at the end of the course. We only bill you for the boxes you open. We do not accept partial boxes of ammunition back. If you open it, shoot it all.
- We do have match grade ammo available for those not using our rifles but if you require something other than 6.5CM we need to know ahead of time so we can ensure we have your required ammunition on hand.

02. Quality Bipods With Cant Adjustment

- We highly recommend Accu-Tac Bipods and/or TBAC bipods (available on our website) but at a minimum you need a quality set of bipods with cant adjustment that allows you to level your rifle.

03. Rifle Cleaning Equipment:

- | | |
|---|--|
| a. Cleaning Rod – Recommend Bore Tech Bore Stix (on our website) | e. Patches – Recommend Butch's Triple Twill Patches (on our website) |
| b. Bore Guide – Recommend PMA Tool Bore Guides (on our website) | f. Solvents – We recommend Boretech Bore Eliminator and Boretech Copper Remover (on our website) |
| c. Jags – Recommend Bore Tech Proof Positive (on our website) | g. Optics Cleaning Kit – Recommend Zeiss Optics Cleaning Kit (on our website) |
| d. Bore Brushes – Recommend Bore Tech Proof Positive (on our website) | |

04. Electronic Ear Protection (we do have loaners available)

05. Eye Protection

06. Rear Bag – Recommend Tab Gear Large Bag, CrossTac Tactical Rear Squeeze Bag XXL (on our website)

- We will have various rear bags on hand for you to use and try out the different types and brands that we recommend throughout the course.

07. Anti-Cant Device - We recommend the MDT LRA Send It Level (on our website)

Recommended Equipment:

01. Rifle Accessories:

- Data Card Holder – We recommend the Hawk Hill Data Card (on our website)

02. Rifle Tools:

- Fix It Sticks – Recommend The Works Kit with All In One Torque Driver

02. Data Book:

- We will provide a Data Book for each student that is adequate for the course. If you already have one, feel free to bring your own.

Meals:

01. Lunch & Dinner Will Be Provided on Day 1 and Day 2 of Level I & II. Only Lunch Will Be Provided on Day Zero of Level I

- There are many restaurants and options for breakfast in the area.
- If you have any food allergies or aversions, let us know ahead time and we will do our best to accommodate you.

Lodging Options:

01. Students are responsible for their own lodging.

02. The closest lodging is Holiday Inn Express in Rocky Mount. We have used it more than once and it is adequate but not great. We now prefer and recommend staying in Roanoke.

03. It is about a 35-minute drive to Pigg River from Roanoke, but Roanoke offers a better selection and much nicer hotels that are often cheaper than the prices in Rocky Mount. It's a little further of a drive but I think most will find the better accommodations worth it.

We look forward to training with you! See you at the range!
